

### **Work Profile at HSTP**

- Work closely and build working relationships with stakeholders in Odisha, including but not limited to the DOH&FW, Institute of Public health, Bhubaneswar.
- Provide technical assistance by undertaking rapid assessment to understand the state preparedness, capacity needs for the roll out and implementation of Biju Swasthya Kalyan Yojana (BSKY) and facilitate prioritization of the technical engagement.
- Provide technical and capacity support to the nodal implementing agency for BSKY to establish the processes for governance, administration, management, and operations
- Provide continued technical assistance in developing the operational guidelines for key functions- medical management, quality, hospital empanelment, grievance redressal, Public health financing, procedure pricing (package costing) and strategic purchase from private, misuse and fraud detection systems, Hospital network management, claim data analysis and similar processes.
- Provide need-based support for the research and implementation of interventions in the state by HSTP directly or through its partners, HSPH and IIPH in Odisha

**Major Research Interests:** Costing of health programs, occupational health, health care evaluation, cancer care

### **Education:**

- **MPhil/PhD** in Health Economics (London School of Hygiene and Tropical Medicine) UK
- **Thesis Topic:** Scaling up HIV/AIDS Prevention in India: An economic analysis of Avahan interventions in four southern states
- **International Master's degree in Health economics and Pharmacoeconomics**-Pompeu Fabre University, Barcelona, Spain completed with distinction (Feb2007- 2009)
- **M.D-Master's degree in Community medicine** (2003) Kempegowda Institute of Medical Sciences, Rajiv Gandhi University of Health Sciences, Bangalore, Karnataka, India, First class, First rank student in graduating class
- Post-graduate Diploma - Industrial Hygiene-2005, Annamalai University, Chennai, First class
- **MBBS- Bachelor of Medicine and Bachelor of Surgery** (1999), Kempegowda Institute of Medical Sciences, Bangalore University, Karnataka, India
- Certificate Course in Principles and practice of Epidemiology -Epidemiological Research Center Vellore (2000)
- Completed Post-graduate certificate in teaching and Learning (**PGCILT**) at London School of Hygiene and Tropical Medicine, (November 2012) and received Associate fellow of higher education academy, University of London
- Completed Distance Learning tutoring course, LSHTM Nov 2011
- Completed MSc Module on Qualitative methods, Infectious disease modeling at the London school of Hygiene and Tropical medicine and STATA course (2010)
- Post graduate diploma in medical law and ethics, National law school University, Bangalore 2019-2020

### **Key Achievements:**

#### **HSTP:**

- Ensured smooth roll out of BSKY in Odisha and supported the first year of implementation extensively by providing the needed capacity building and monitoring support to the team.

**Sudha Chandrasekhar  
Consultant**

- Completed the first-year claims analysis report and a policy brief regarding one year of BSKY implementation
- Collaborated with IIPH-B to prepare the transition report of multiple schemes of Odisha to one integrated scheme BSKY
- Provided need-based support to HSTP in facilitating to set up urban primary health care project in Karnataka with state government and implementing partner Karnataka health promotion trust.

**World Bank:**

- Institutionalization of medical audit with fraud control
- Co-lead the revision of health benefit package rationalization HBP 2.0
- Lead the standard treatment guidelines customization for adoption for PMJAY packages
- Lead the cancer cell activities of NHA
- Support Department of health research GOI DHR as a costing expert and Health technology assessment expert in their technical advisory committees
- Involved in capacity building activities at national and state level workshops as resource person

**Suvarna Arogya Suraksha Trust, Department of Health, Government of Karnataka:**

- National Health Protection scheme cabinet approval from the State. Worked closely With GOI in various sub-committees to give inputs to NHPS design and implementation plan. Technical committee member for restructuring RSBY at the national level as National Health Protection scheme.
- Yashaswini scheme and RSBY Scheme transition to SAST
- Universal Health coverage Cabinet note preparation and completed activities for implementation of merged Ayushman Bharath Arogya Karnataka scheme.
- Prepared key proposal for World Bank assistance to GOK
- Contributed to the state proposal to be taken up under SATH initiative with Nitiayog. Karnataka was selected as one of the states where this initiative would be piloted for health sector.
- Played a Key role in organizing E-lets conference and SATH workshop
- Active role in World Bank milestones activities by preparing required reports and in Joint Learning network initiative.
- Contributed to Medical Audit collaborative of JLN in preparing the Medical audit tool kit and attended three workshops held in Korea
- Revision of package rates done consecutively for 3 years and co-ordinated the costing study undertaken by SAST with world bank assistance.
- Provided inputs for the development of curriculum for international workshop on costing methodology organized by Joint Learning network and handled one of the sessions on provider payments during the workshop. Participated in the workshop on markets for health organized by World bank
- Ensuring capacity building of various stake holders involved in quality care and determine executable strategy for scheme designing and management. Developing of guidelines and protocols for various service providers.
- Report prepared on the status of road traffic injuries in Karnataka and Clinical Care pathway for management of trauma patients. Assisted required data and co-authored the economic analysis of road traffic accidents in Karnataka report.
- Have assisted the health department Principal Secretaries in preparing various cabinet notes and Government Orders.

### **Brief Bio**

Sudha's work focuses on HSTP's state health systems transformation in Odisha where she advises on health financing and government health insurance program Biju Swasthya Kalyan Yojana (BSKY). She has over 20 years of experience as an academician and a clinical researcher in various national and international research institutions like NIMHANS, St. John's Research Institute.

She has been faculty with the London School of Hygiene and Tropical Medicine (UK) for the project *"Monitoring and evaluation of the Avahan project in India: impact assessment and cost-effectiveness analyses using enhanced surveillance methods and mathematical modelling of HIV transmission dynamics"*, funded by the Bill and Melinda Gates Foundation (2005-2015).

Her most recent assignment was with Suvarna Arogya Suraksha Trust, Karnataka as Medical Director leading the convergence of health schemes in Karnataka. She has co-authored the medical audit toolkit with technical support from JLN and HIRA, South Korea.

Sudha is a medical doctor, public health specialist and a health economist. She is the recipient of Global Health Leadership Award from IDRC, Canada in 2008. She has also been a recipient of two Young Scientist awards from the Karnataka Association of Community health and Indian Association for occupational health for her research work in the field of Occupational Medicine.

She is also significantly involved in teaching and supporting master students at LSHTM and universities in India. She is an accredited examiner for the University of London. She has shared her work by presenting in various state, national (received many best paper awards like P. Ashwath award, Mohanmal award, Mahadevan award) and international level conferences and expert group meetings on health economics both as invited speaker and peer reviewed presentation. She has co-authored research papers in the field of health economics with a focus on costing health programmes and occupational health.

She is also currently a senior consultant at World Bank providing technical assistance to National Health Authority for the implementation of Ayushman Bharath-Pradhan Mantri Jan Arogya Yojana in the areas of health benefit packages, Standard treatment guidelines, cancer cell, institutionalizing medical audit and research studies.
