

**Dr Rahul S Reddy Kadarpeta**  
**National Coordinator**

**Work Profile at HSTP**

Health systems and financing specialist driving strategic planning, managing grant portfolio & reporting, donor relations and collaborations. Supporting design & management of capacity building and policy dialogue initiatives to ensure wider reach and sustainability.

**Major Research Interests**

Health Financing & Universal Health Coverage

**Key Achievements**

- Institutionalization of National Health Accounts in India at National Health Systems Resource Centre, Ministry of Health and Family Welfare, GOI & Team lead for production of National Health Accounts for India (2014-2018); Contributed to Global Health Accounts Expert Consultations and trainings organized by OECD and WHO.
- Demonstrated expertise in engaging with union & state governments, policy & research institutions, and Indian & international donor/technical agencies to design and deliver initiatives on measuring universal health coverage and strengthening health financing policy in India.

**Education**

- Master's in International Healthcare Management (2008 - 2010) Management Centre Innsbruck, Austria, including coursework in Tata Institute of Social Sciences and practicum at Centre for Emerging Market Solutions, Indian School of Business.
- Bachelor of Medicine and Bachelor of Surgery (2002-2008), NTR University of Health Sciences, including course work at Southern Illinois Medical School, Springfield, USA

**Brief Bio**

Rahul is a medical doctor and health systems financing expert with a decade of experience in advising the union & state Governments, policy making bodies and not-for-profits in India. At NHSRC (MoHFW, GOI) he was instrumental to revive and institutionalize National Health Accounts for India by establishing the technical secretariat, inter-ministerial steering committee and expert group; He contributed to National Health Policy 2017 & lead the production of annual health accounts for India (FY 2013 to FY 2019). He also supported design of National Health Mission strategies for improving resource allocations and public-private partnerships, enabling research in financing universal health coverage for India and measuring financial risk protection. His formative years were with RSBY outpatient healthcare experiments in Odisha & Gujarat and ACCESS Health International supporting the Joint Learning Network for Universal Health Coverage (JLN) & managing the Joint Learning Fund.
