Panelists:

THELMA NARAYAN | Director, Academics & Policy Action, SOCHARA

ABHAY BANG | Founder, SEARCH

PRASHANTH N SRINIVAS | Assistant Director (Research), Institute of Public Health, Bengaluru

Moderator:

VIKRAM PATEL | Pershing Square Professor of Global Health, Harvard Medical School;
Professor, Harvard TH Chan School of Public Health; Co-founder, Sangath

The webinar is a joint Lancet Citizens' Commission on Reimagining India's Health System event with Health Systems Transformation Platform and is being held to mark World Health Day. This year, the theme for World Health Day is the role of health promotion in advancing well-being, equity, and sustainable development. Our distinguished panel will discuss the contribution that health promotion can make to realizing these goals, evidence-based policies for health promotion, and experiences from regional examples of health promotion programs. As a Citizens' Commission, we invite the public to participate in the discussion, provide input and engage with the panelists.
