

Dr. Abdul Aziz Kattakath
Associate Consultant-Health Insurance

Dr. Abdul Aziz Kattakath is an associate consultant in health insurance at Health System Transformation Platform. He works closely with client states to understand their specific requirements and to create tailored solutions that ensure comprehensive and cost-effective health insurance policies. He also provides recommendations to improve the overall public health insurance system in terms of effectiveness, equity, and efficiency. He has an MBBS degree from Calicut University and has clinical experience as a neurosurgery resident. He has also worked with various stakeholders at both the national and state levels in the public health insurance sector. He has played a key role in developing and operationalising the adjudication, audit, and grievance redressal verticals of State Health Agency Kerala. He has also been instrumental in developing the policy for providing free Covid-19 treatment to the general public during the pandemic. He has contributed to the development and revision of policies and guidelines on health benefit packages, standard treatment guidelines, grievance redressal mechanisms for hospitals, health policies and quality assurance. He is passionate about improving the public health insurance systems and ensuring comprehensive coverage for all.
