

Syed Mohd Abbas
Senior Program Associate

Mr. Syed Mohd Abbas is a public health and social development professional. With over 15 years of work experience, he is passionate about strengthening health systems and improving public healthcare through program implementation, capacity building, and comprehensive primary healthcare initiatives at district, state, and national levels. His experience working with prestigious organizations like UNICEF, CARE India, and the National Health Systems Research Centre (NHSRC) has enriched his expertise in health service delivery and program implementation.

Currently serving as a Senior Program Associate in India's HPSR fellowship program under the HSTP umbrella, Mr. Abbas takes on key responsibilities. He coordinates activities, develops teaching content, and provides crucial support to HPSR-driven research initiatives. His pivotal role involves ensuring the smooth functioning of programs and making substantial contributions to their success.

During his tenure with NHSRC for more than 9 years he played a vital role in the ASHA Program and Comprehensive Primary Health Care - Ayushman Bharat Health and Wellness Centre Program. Mr. Abbas excelled in facilitating numerous national and state training programs and providing technical inputs for program guidelines and national reports. His dedication to expanding access to healthcare services nationwide is evident as he supported states like Uttar Pradesh, Bihar, Chhattisgarh, Haryana, Andhra Pradesh, Rajasthan, Uttarakhand, and Jammu Kashmir, among others. With a proven track record in public health, Mr. Syed Mohd Abbas continues to drive positive impact and advancement in the field.
